DULLNESS IN WALL STREET

CLOSE WAS HEAVY AND BELOW THE BEST.

New York, Jan. 10 .- Today's unimport-Ant stock market was similar to that of yesterday, except that today the dullness of the market was even more pronounced, the early rise less vigorous and the following reaction not so sharp. As a trial of speculative sentiment on the part of the processional element it followed yesterday? I lines almost exactly and demonstrates lines almost exactly and demonstrate public opinion.

There was some apprehension, indeed, that the advance in prices was made to afford a basis for selling on the part of the speculative holders, but the character of the market procession of the pressure to sell and such as there was was not pushed at the lower level of prices. Such a condition serves to dissuade the bears from making short sales in the market. The trading is so narrow and of so high a professional character as to lend itself to description only in technical terms. The appearance of a published interview by an active speculative leader professing extremely hopeful views of higher prices aroused by tepid interest, on account of some of the market precedents as to former responses to similar outgivings. Attention was given to the activity of this discussion modified to some extent the feeling caused by vesterday's conviction that no action would be taken at the present session of comparisons of the bank of the reports received later in the day of the prospective success of the lean relieved some apprehension of a shock to the financial world, due to earlier reports that the issue would prove unsuccessful.

Meantime, the strong attraction for gold at par is continued, as are the propositions for further large shipments from that center, the strong attraction of gold in the Tranval was 489 709

Meximal Preferred and Int. Pre ant stock market was similar to that of yesterday, except that today the dull-Washington, Jan. 10.—Today's statemen of the treasury balances in the genera fund, exclusive of the 3150,000,000 gold reces of the stream of the division of redemption shows: Available cash balance, \$141,887, 387; gold, \$71,835,888.

Metal Markets.

New York, Jan. 10.—The London metal markets were again easier, with the exception of spelier.

Tin suffered the most severe shock closing at £131 for spot and at £130 10s for futures. The local market for tin having advanced recently largely as a matter of sympathy with London, was affected by the foreign break and closed weak at 28,356,29.15.

Copper, however, was unchanged locally, and is reported in a firm position, with lake at 15.37½@15.59; electrolytic, 15.12½@15.25; casting, 14.87½@15.12½. It was reported that in some instances lake and electrolytic were being quoted slightly below these prices, but it is probable that no transactions of importance could be made under the figures given. in London, copper declined to £68 for spot and £68 5s for futures.

Lead was quoted at £12 18s 3d in London. Locally the market is firm at 4.60 @4.75.

Spelter was unchanged at £25 2s 5d in London and 6.15@6.25 locally, with some cember, giving the output as 362.264 outnees, attracted attention on account of the uninterrupted expansion shown in the monthly rate of output from that center. The maximum monthly production of gold in the Tranvaal was 455.709 ounces, in August, 1899. The present rate of increase, which has gone on steadily since the resumption after the Boer war, thus promises to bring the supply from that field up to the maximum within the next year. The importance of this large source of replenishment for the world's stock of gold must be taken account of in the consideration of money and financial prospects. Professional attention centered on the Pacifics. Not much of the early advances were left at the closing, which was heavy.

There was much variety in the bond market, lut prices moved irregularly. Total sales, par value, \$3.735,000.

United States bonds were all unchanged on cail. G4.75.
Spelter was unchanged at £25 2s 5d in London and 6.156.25 locally, with some dealers said to be paying as high as 6.30 for prompt delivery.

Iron closed at 54s 6d in Glasgow and at 49s 9d in Middlesboro. Locally the market continues firm. No. 1 foundry northern is 17.50617.35; No. 2 foundry northern at 17.50; No. 1 foundry southern and No. 1 foundry southern soft at 17.75 618.00.

New York, Jan. 10.—Coffee—Spot Rio Steady. The market for coffee futures opened steady at an advance of 5 points in response to higher European cables and rather bullish Brazilian cables estimating the amount of coffee raised in the interior of Santos at 1,000,000 bags, and the coming Santos crop at 6,500,000 bags. Later, however, the French market reacted and the initial gain in the local market was barely maintained as Europe was seiling and some of the bulls appeared to be gradually reducing their lines, The close was steady, ret unchanged to 5 points higher. Sales were reported of 84,295 bags, including March at 7,99; May, 8,15; July, 8,29; September, 8,50@8,55; December, 8,75.

Is what we paid for advertising in the year of 1904 to tell you of our ability to Collect Bad Debts. If we did not know we could collect your bills we certainly would not be paying out all this good money. We did the largest business last year since the merchants established this association 12 years ago. We are collecting thousands

of dollars for our clients each month from claims they considered worthless. This ad will bring hundreds of claims to our office for collection, and we are just as sure to make lots of commissions thereon. Send in your claims. Do it now. We collected \$225 for the Salt Lake Equitable Co-op. last month from

three claims, each of which was 12 years old.

RHEUMATISM

All physicians are agreed that Rheumatism is the result of excess of uric acid in the blood, but there is much diversity in the treatment of this terribly painful malady. Internal remedies all too often upset the stomach and cause chronic intestinal complaints.

PARACAMPH

Is an external remedy, which goes right to the seat of the trouble through the pores. Ordinary liniments are practically useless, as they only reach the surface, but one of Paracamph's most remarkable attributes is its marvelous penetrating properties. It goes right through the skin and flesh and into the blood, scattering congestion, allaying inflammation, soothing the nerves, and stimulating the system to pass off the excess of uric acid through the kidneys.

Stiff from Unaccustomed Exercise.

Excessive exercise when the body is unaccustomed to it will cause stiffness and soreness amongst those muscles that have been brought most into play. Paracamph, if used freely at once, will prevent that stiffness, or

if used later will cure it promptly. Three sizes-Small bottle, 25c.

3 times as much for 50c. 8 times as much for \$1.00.

A Bottle Free.

To more quickly introduce this wonderful remedy, we will send a full size bottle of Paracamph to any one properly filling out and forwarding the accompanying coupon. Mail it at once, as this offer may not Remember, PARACAMPH is recommended by surgeons and physicians. Used by athletes the world over. Thousands of testimonials.

Cut out this coupon at once, fill out the blanks, and mail it to THE PARACAMPH CO., Louisville, Ky. I have never used Paracamph, but if you will send me bottle free of cost, I will try it. W. P. Street Address
